CUSTOMER COMPLAINT NOTIFICATION

To: Quality Assurance, Vertexa Pharma Ltd (API Division)

From: Quality Control, Nordwell Formulations GmbH

Complaint Date: 2026-03-04

Complaint Source: Email

Product Name: Metformin Hydrochloride IP

Product Strength / Grade: USP Grade, D90 45 um

Batch / Lot Number: MTF-2509-118

Manufacturing Date: 2025-11-18

Expiry Date: 2027-11-17

Quantity Affected: 125 kg (5 drums of 25 kg)

Description of Complaint:

During dispensing of the above batch our operators observed black fibrous particulate matter in two of the five HDPE drums received. The particulate is visible against the white powder bed and was found on the surface as well as approximately 40 mm into the powder. The material is intended for a sterile-adjacent oral solid dosage line and the affected batch has been quarantined. One intermediate blend prepared before detection has also been placed on hold pending your investigation.

We consider this a critical quality defect and request your investigation report, including a review of the drum liner supplier and the milling area, within 10 working days. Photographs and a retained sample of the particulate are available on request.

Regards,

Dr. Anke Feld

Head of Quality Control, Nordwell Formulations GmbH
